

Candidate Card Update Instructions

Candidate Hub | candidates.skovgard2026.org | Updated June 18, 2026

Help Wyoming voters see the field clearly.

Purpose

The Candidate Hub gives Wyoming voters one place to review primary candidates and public campaign information. Candidate card updates help keep the directory accurate, useful, and fair to every person asking to serve.

A candidate card is a public information listing. Voters decide for themselves.

What can be updated

- Candidate name spelling, office, district, county, or ballot information.
- Campaign website, public campaign email, public phone, and social links.
- Candidate photo or campaign logo the campaign has rights to use.
- Short bio, public priorities, questionnaire answers, events, or corrections.

What to include

- Candidate name exactly as it should appear.
- Office sought and district or county, when applicable.
- Your name, role, and best contact information.
- The card URL or clear description of the card being updated.
- A clean list of requested changes.

How to request a change

1. Open <https://candidates.skovgard2026.org/> and find your candidate card.
2. Use the card update or correction link when one is available. If a direct link is not available, send the request using the public contact method listed on skovgard2026.org or by replying to the invitation message you received.
3. Send changes from the candidate, campaign email, or an authorized campaign representative.
4. Attach images as JPG or PNG files and include permission to use them on the Candidate Hub.
5. Review the card after posting and send one follow-up list if anything still needs correction.

Photo and logo guidelines

- Preferred formats: JPG or PNG.
- Best size: square or portrait image, at least 800 px wide when possible.
- Use candidate-owned or campaign-authorized images.
- Avoid watermarked images, copyrighted photos without permission, screenshots, blurry photos, or images with private people in the background.

Text guidelines

- Short bio: 75 to 150 words is ideal.
- Priorities: 3 to 5 short bullets are easiest for voters to scan.
- Use plain language, complete names, correct dates, and working links.
- Keep the card focused on the candidate, the office, and the public information voters need.

Review standards

Updates may be formatted for consistent style, clarity, length, and mobile readability. The directory may decline or remove material that is false, private, unsafe, defamatory, copyrighted without permission, unrelated to the candidate card, or unsuitable for a public voter information page.

Changes are posted as verification and time allow. Candidate-provided content remains the responsibility of the candidate or campaign submitting it.

Copy-and-paste request format

Subject: Candidate Hub Update Request - [Candidate Name] - [Office]

Candidate name:

Office sought:

District / county, if applicable:

Card URL, if available:
